**and Sandstone**

**Other Equipment**  
**Used:**  
**Infrared Heater**  
**Hopper Gun**  
**Hand Heater**  
**Plate Compactor**

Beacon Hills Grange is situated in one of Melbourne's growth corridors and is a premium location providing country lifestyle with modern and sort after amenities, such as Shopping Centres, Schools, Colleges, Show Grounds, Sports Facilities and Public Transport.

Beacon Hills Grange adjoins parklands and is nestled amongst gentle undulating hills with the opportunity for views, therefore much care and planning by DSL the developers and 21<sup>st</sup> Century Roads was required to provide a unique and attractive streetscape.

The results speak for themselves and StreetPrint is grateful for the opportunity to provide the clients with a product that fulfilled the vision and expectations required for the project.

With a total of 850m<sup>2</sup> of StreetPrint Pavement Texturing, consisting of entrance boulevards, roundabouts (with spoke type patterns) and threshold treatments ranging from intricate Eurofan, Texas Cobble, and offset Brick. StreetPrint and Applicator Brick n Pave were happy to provide the finishing touch to compliment this excellent development.
